# Grain Trailer Power

**...Tarp & Hopper Door 12V Electric Power Kits**

## Reduce Crank Stress

Increase your productivity for tarping and grain discharge with Roll-Rite®. Patented knuckle arm pivot and electric gear motor technology retrofits most existing manual tarps., single arm or dual arm catwalk mount styles available.

Standard equipment on power kits for tarping includes the **TarpStretcher**® electric gear motor designed exclusively for side tarping. Standard mounting bracket, electric kit and necessary wire are included. Wireless remote control available.

Slope nose trailers require an angle adapter for mounting (above right), sold separately.

Innovative tarp return option provides 3-times more pull-back force than average bungee returns. Longer-life, nylon-corded rope is unaffected by cold.

Retrofit hopper doors for crank-free hopper door operation. The powerful **TaskMaster**™ electric gear motor delivers the necessary torque for large, hard to crank doors. **TaskMaster**™ HS (high-speed) kits are **only** recommended for strap or belt-style doors.

**TarpStretcher®  
PK-Tarp**

**TaskMaster®  
PK-Hopper**

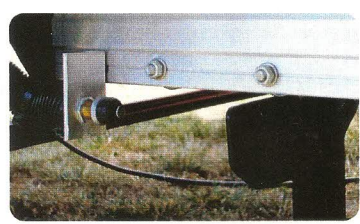

• Smooth, Patented Knuckle Arm Operation with Low Overhead Clearance

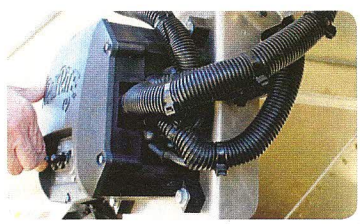

• 1-Bolt Release for Crank-Through Access in case of unforeseen power failure

• Innovative Rear Rope Return - Longer-life Than Bungees & Unaffected by Cold

• Limit Switches, Wire, Mounting Bracket & Hinge Included with Kit

• Pre-Wired Box with Sealed Toggle Switch Operation Controls Up to 3 Motors

• Premium Tarp Fabrics Available for Maximum Durability & Longer Tarp Life
