RITE-LOCK™ for Grain Tarps

- Reduces Crank Stress
- Climbs Heaped Loads Easily
- Ultimate Tarp Control in Wind

Increase your productivity for tarping with Roll-Rite®. Patented knuckle arm pivot and electric gear motor technology retrofits most existing manual tarps.

Standard equipment on power kits for tarping includes the **TarpStretcher®** electric gear motor designed exclusively for side tarping. Universal mounting bracket, Rite-Touch™ Wireless Remote Control kit and necessary wire are included. Trailer face mounting brackets or catwalk mounting brackets are also available.

Our catwalk mount kit features a lower socket arm with telescopic adjustment to fit any catwalk position. Catwalk mount arms bolt onto any manufactured catwalk and eliminate the need to drill into the trailer walls, reducing labor.

• Rear Synchronized Arm...locking collar feature secures, supports axle end to provide ultimate wind protection.

• Patented Knuckle Arm with Limited Adjustable Spring Tension

• Universal Mount...works on square or slope nose trailers.

GT-Series Rite-Trap™ Hopper Kits

Grain Hopper Doors

**RITE-TRAP™
Rapid Install**

Reduce Crank Stress

Retrofit hopper doors for crank-free hopper door operation. The powerful **Rite-Trap™** electric gear motor delivers the necessary torque for large, hard to crank doors. **RiteTrap™ HS** (10250 high-speed gear motor) kits are **only** recommended for strap or belt-style doors.

Wireless remote control feature lets you monitor door operations from a dust free location away from loading and discharge.

Roll-Rite just made trap openers more durable, yet quicker and easier to install. Rite-Trap openers are now available pre-assembled, cutting installation time by up to 40%. Rite-Trap™ Rapid Install kits feature an integrated aluminum housing that fully protects the gear motor from road debris and road spray. Our industry exclusive 1-pin manual override feature is standard. Limit switches allow true remote control operation and prevent hopper door damage.

for Single or Dual Hopper Doors

• Limit Switches, Wire, Mounting Bracket & Hinge Included with Kit

• 1-Pin Release for Crank-Through Access in case of unforeseen power failure

Black Box™ Wireless Controls

- Pre-wired control box
- Controls up to 3 motors
- Easy "Install-Ready" external connections
- Sealed buttons w/ Work Light button
- Improved weather resistance
